# **The Art of Intelligence, Cindy Kats 4.2 insurance algorithms and symbiotics.**

When the fog of time cleared, we stood at the pinnacle of success.

## Problems

- Risks are billions in profits
- Insurance: U.S. 920 billion, Logistics: 550 billion, Tesla: \$10 billion in accident losses
- Tesla takes a beating in the US, warehouses go up in flames in RF, insurers cry in ANAPA
- **WHO'S GONNA COVER YOUR BACKS BEFORE THE LOSSES?**

## Solution

- LMM AI recognizes 60-100% of a future event.
  - In B2C, AI on game strategies, trains and creates a symbiotic.
  - In B2B, AI algorithms for insurance use only 0.05% of the brute force.
  - These are not risks, but your missed chance to save and make money.
- These are not risks, but your missed chance to save and make money.

# PRODUCT

- **B2C B2C LMM AI Cindy Kats 4.2 = gaming strategies and website promotion**
- **B2B LMM AI = life insurance and risk protection.**
- **Subscription for B2C \$48-\$777 per year**
- **Subscription for B2B \$150-\$1000 per month**
- **IT'S NOT JUST AN AI = IT'S A SMART SLEDGEHAMMER TO WORK AND EARN!**

## Market capacity: Take it or lose it

- TAM \$1,800 million, SAM \$14.9 million, SOM 0.03% for the B2C market
- 
- B2C market of game strategies \$ 284 bln. per year +7% per year

# MY SECRET

- **Long-term memory: Teaches, not forgets, unlike LLMs**
- **Minimum sampling: Works where LLM sinks**
- **Brute force: 0.05% → 0.0045% - accuracy that breaks patterns**
- **Predictions with reliability:**
  - US: 60-73%**
  - China: 83%**
  - RF: 100%**
- **LMM is about predicting money, not LLM talk**
